Dear Newspaper Editor:

Everyone knows there are too many traffic jams in our city. It's a big problem.

Driving in the city is very slow because so many people drive cars. There is a traffic jam every day, and it takes my dad one hour to drive to work. He is very frustrated.

There is also too much pollution because of the traffic jams. We need to fix this problem.

There are many solutions. First, people could take public transportation. There are a lot of buses in the city. And the subway is convenient and fast. Second, people could ride bikes. Biking is an efficient way to get around, and you get to exercise at the same time.

I hope the town hall can do something fast to solve this problem. We will live in a healthier environment if there are fewer traffic jams.

Sincerely,

Robert
