15. 다음 글을 읽고 Piggy Bank에 대한 내용을 찾아 문장을 완성하시오. (7점)

Did you ever wonder why people thought to make their banks in the shape of a pig? Believe it or not, it happened by mistake. During the fifteenth century, dishes and pots were made from a type of inexpensive orange clay called *pygg*, which was pronounced just like pig. When people had extra coins to save, they would place them in clay jars or pots. Since the type of clay was called pygg, people referred to the jars as pygg banks. Over time, these evolved into piggy banks. After a few hundred years, people forgot that the word *pygg* referred to the clay the banks were made from. In the nineteenth century, when English potters began to get requests for piggy banks, they assumed their customers were asking for banks in the shape of pigs, not banks made from pygg.

(a) The word, Piggy Bank was created by _____. (실수로) (3점)
